

Additions, deletions, changes for *Airports of Mexico*

The following information is not to be used for flight and is for reference only
Changes to airports/airstrips are as reported to us from many sources and may or may not be correct.

If you see a change to an airport, please inform us so that we can verify and post.

Please note that we will not be posting airports closed or open due to licensing as licensing is in a constant state of change.

Airports with four letter identifiers in caps are ICAO airports (identified by the International Civil Airport Organization)

Airports with three letter identifiers in lower case are IATA airports (established by Mexico)
